

So you want to upload some pictures?

We can help!

1. Go to <http://mooseatvclub.com/pictures/>
2. Click on the blue link near the top labelled "Login"
3. Enter user name and password exactly as given to you by the Site Administrator
 - a. You may choose to click the "remember me" button so you no longer have to fill this information in, but "cookies" have to be enabled on your browser.
4. Click the "Login" button underneath the password area.
5. You will see a "welcome (insert your user name)" screen with a "continue" button. If you choose to wait, or click it, you will be taken to the home page area.
6. At this time you may wish to view the pictures and libraries of current users. Take some time and look around to see what other people are posting and the descriptions they have. Find a style you like, and get ready to do the same.
7. Underneath the header you will see a row of buttons, one marked "create/order my albums". Click this button first. It makes life a lot simpler!
8. Click on the "new" button that has now shown up and the words "new album" show up in the box and below the button you just clicked on. Erase the bottom "new album" and rename to what you would like to call your album. It could be a description of the pictures that will be placed into this album such as "Redfern" or something like "New Bike". Your choice.
9. Click the "apply modifications" button and click "Okay" on the window that appears.
10. Now click continue.
11. Near the top of the page, you will see the blue link called "Upload file". Click it.
12. A new page will appear with 10 slots and a "browse" button to the right of each slot. Click the browse button and navigate to where you have your pictures stored. Click on the file you want and hit open. This will now put a link inside that slot area. Repeat till either the slots are filled, or you run out of pictures. Click the "continue" button.
13. Wait for the program to do its thing. This could take awhile due to speed of the net or size of the picture. When it's done, click "continue".
14. Use the drop down menu to select which album you want to use, fill in any information you wish, click "continue" and repeat this step for each picture you have uploaded.
15. You will now be back at the home page and see a user gallery link on the left near the top. Navigate to your album and click on the picture. Congratulations! You have uploaded your pictures.
